*Gregory, South Dakota is located on Hiway No. 18
and is approximately 26 miles east of Winner*

27 BULLS . . .

Nearly all big, rugged, two-year-olds, with a few strong yearlings. These bulls have been specially developed for top range and farm herd use.

28 FEMALES . . .

A specially selected group of bred heifers – all from the Thiede herd. Many of these will have calves in the Spring.

*Two of the largest registered Shorthorn herds in the middle-west
have been making plans for a year for this feature auction.*

OTTO THIEDE & SONS, Burton, Nebraska, who were the top recorders in the American Shorthorn Breeders' Association for the past several years, are selling 19 bulls and 28 females, the very tops out of their 400 head cow herd. Their offering is sired by Sunrise Consul, sire of many winning steers. Calves sold each fall in their annual club calf sale, Femco Better News 6th, Scotsdale Justinia, Scotsdale Kilty. The females are mated to Louada Triumphant, Scotsdale Kilty, Chicago Fanfare 16th, Payroll Triumph and Louada Winston.

FLIGINGER SHORTHORN FARMS, Hurley, South Dakota, owned by the C. R. Fliginger family and Melvin Schmeichel family, are consigning 8 big, strong, aged bulls. Seven are bred by Femco Prince Bob 5th. His show herd the past year had many champions. The first pair offered for public sale was the champion pair and sold for top money in both the bull and heifer groups in the South Dakota State Sale. There will be one bull by Bonway Pride.

STANDARD GUARANTEE OF AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

THIEDE-FLINGER SHORTHORN SALE

Herd Bulls

We are convinced that the herd sire is the most important part of any herd in order to make any progress. We feel that you should be better informed about our herd sires.

You will notice in the following pictures that the first thing we require is a certain amount of style and conformation, but most of all, they must be good-doers or well-fleshed cattle. If performance breeds on, and we believe it does, then this quality should assure you of good-doing cattle. Not to be forgotten is a good bone structure. They must have this in order to move and perform their purpose. Good legs and feet are important, and also a good hair coat to protect them from winter's cold blast and from the summer heat. And of course most important is a good pedigree, because get like that gives you the best guarantee of the right kind of cattle.

None of our bulls is bought because they are sold for a price, or because of where they come from, but because of what we hope they will do for us, and their sons and daughters carry on and do for you. Only a reputation sire can sire a reputation calf crop.

GREGORY, SOUTH DAKOTA FEBR. 19
